

# INDEX

## 1992-1996

### VOLUMES 26 THROUGH 30

(Note: Author Index Begins on Page 297.)

#### *Title Index*

*Note: Titles in italic type are books reviewed.*

#### ■ A

- Absorption Column, Liquid Phase; Axial Dispersion  
in a Packed ..... 27(1),20
- Academia, The Changing Role of ..... 27(4),168
- Academic Careers for Chemical Engineering Graduate  
Students, A Seminar Series on ..... 29(4),230
- Accident and Emergency Management* ..... 28(2),102
- Accreditation, A Jungle Guide Through ..... 27(1),14
- Acid Rain in a High School Outreach Program,  
A Unit on ..... 27(3),210
- Adsorption, Fundamentals of ..... 28(4),250
- Adsorption Calculations and Modeling* ..... 30(4),271
- Advising, Undergraduate Academic ..... 30(2),156
- Agitation Experiment, Add Some Flavor to Your ..... 26(3),156
- Agitation on Oxygen Mass Transfer in a Fermentor,  
The Effect of ..... 26(3),142
- AMPL, and MINOS for Optimization, Comparison  
of GAMS, ..... 30(3),220
- Application of quality Management Techniques  
to ChE Processes ..... 30(1),30
- Applications and Examples in Undergraduate  
Thermodynamics, Alternative ..... 29(3),150
- Applications of Some Modern Management Tools  
in Education ..... 30(1),26
- Applied Bifurcation Theory ..... 27(4),154
- Applied Math Problems on Vessel Draining ..... 26(1),30
- Applied Statistics: Are ChE Educators Meeting  
the Challenge? ..... 30(2),122
- Applied Stochastics for Engineering ..... 27(4),170
- ASCE Annual Meeting: Program, ChE Division ..... 29(2),100
- ASCE ChE Division Awards ..... 30(4),279
- ASCE ChE Division Lectureship Award, The ..... 27(4),196
- Axial Dispersion in a Packed Gas Absorption  
Column, Liquid-Phase ..... 27(1),20

#### **AWARD LECTURES**

- Axial Dispersion in a Packed Gas Absorption  
Column, Liquid-Phase ..... 27(1),20
- Computer-Aided Design and Operation of  
Batch Processes ..... 29(2),76
- Computing in Engineering Education:  
Part 2: Education and the Future ..... 26(1),52

#### Interactive Dynamics of Convection and

- Crystal Growth ..... 27(4),198
- Interfacial Transport Processes and Rheology ..... 26(2),104
- Modeling Flows in Films, Jets, and Drops ..... 29(4),210
- Polymer Flow Instabilities: A Picaresque Tale ..... 28(3),162

#### ■ B

- Basic Chemical Engineering Experiments ..... 27(1),52
- Batch Processes, Computer-Aided Design and  
Operation of ..... 29(2),76
- Bifurcation Theory, Applied ..... 27(4),154
- Biochemical Engineering Laboratory, A Project-  
Oriented Approach to an Undergraduate ..... 28(2),98
- Biochemical Separations to Engineers, Teaching ..... 30(4),286
- Biochromatography, A Tool for Teaching: Solid  
Phase Extraction Columns ..... 27(1),34
- Bio(Molecular) Engineering, An Introduction to the  
Fundamentals of ..... 26(4),194
- Bioprocessing* ..... 28(3),193
- Bioreaction Engineering Principles* ..... 30(3),173
- Bioreactor Experiment for the Senior Laboratory, A ..... 28(1),24
- Bioseparation via Cross-Flow Membrane  
Filtration ..... 29(2),86
- Biotechnology and Society, A Course on ..... 28(2),140
- Boundary Element Methods in Transport  
Phenomena* ..... 30(1),19
- Boundary Perturbation to Linearize a System of  
Nonlinear PDEs, On Using a ..... 30(1),58
- Boundary Value Problems, Scaling Initial and ..... 28(4),236
- Brine Crystallization, Practical Applications of Mass  
Balances and Phase Equilibria in ..... 28(2),136
- BS/Master's Industry Program in ChE, Accelerated ..... 28(3),194

#### ■ C

- Calculations, Helping Students Develop a Critical  
Attitude Towards Chemical Process ..... 26(2),88
- Calculators, Advanced Engineering: Don't Overlook  
Them ..... 27(1),60
- Catalysts on Thermodynamic Equilibrium,  
Influence of ..... 26(4),180
- Catalytic Converters, Design of a Pilot Plant to Leach  
Platinum from ..... 28(4),266
- CESL: Chemical Engineering Simulation Laboratory .... 30(2),114

- Bioseparation via Cross-Flow Membrane  
Filtration ..... 29(2),86
- Biotechnology and Society, A Course on ..... 28(2),140
- Boundary Element Methods in Transport  
Phenomena* ..... 30(1),19
- Boundary Perturbation to Linearize a System of  
Nonlinear PDEs, On Using a ..... 30(1),58
- Boundary Value Problems, Scaling Initial and ..... 28(4),236
- Brine Crystallization, Practical Applications of Mass  
Balances and Phase Equilibria in ..... 28(2),136
- BS/Master's Industry Program in ChE, Accelerated ..... 28(3),194

#### ■ C

- Calculations, Helping Students Develop a Critical  
Attitude Towards Chemical Process ..... 26(2),88
- Calculators, Advanced Engineering: Don't Overlook  
Them ..... 27(1),60
- Catalysts on Thermodynamic Equilibrium,  
Influence of ..... 26(4),180
- Catalytic Converters, Design of a Pilot Plant to Leach  
Platinum from ..... 28(4),266
- CESL: Chemical Engineering Simulation Laboratory .... 30(2),114

Changing Role of Academia, The .....	27(4),168
Chemical and Environmental Engineering: A Logical Combination .....	29(4),234
Chemical and Process Thermodynamics .....	26(3),133
Chemical Engineering: Notes on Its Past and Its Future .....	28(4),226
Chemical Engineering: Vol. 1. Fluid Flow, Heat Transfer and Mass Transfer .....	27(3),182
Chemical Engineering: Vol. 2. Particle Technology and Separation Processes .....	27(3),183
Chemical Engineering Design Project .....	26(4),174
Chemical Engineering Simulation Laboratory: CESL .....	30(2),114
Chemical Kinetics and Dynamics .....	26(1),33
Chemical Process Calculation, Helping Students Develop a Critical Attitude Towards .....	26(2),88
Chemical Process Safety: Fundamentals with Applications .....	26(2),75
Chemical Reaction Engineering .....	26(4),184
Chemical Reaction Engineering Education, Current Trends in .....	30(2),146
Chemical Reaction Engineering, Elements of .....	27(4),161
Chemical Reaction Engineering for Undergraduates, An Appetizing Structure of .....	27(2),110
Chemical Thermodynamics: Basic Theory and Methods .....	30(1),69

#### CLASS AND HOME PROBLEMS

"An Ode to That Distillation Tower" and Other Poetry: A Creative Writing Assignment .....	30(3),180
Czochralski Crystal Growth Modeling .....	27(2),122
Environmental Impact of Paper and Plastic Grocery Sacks .....	26(2),82
Influence of Catalysts on Thermodynamic Equilibrium .....	26(4),180
More Applied Math Problems on Vessel Draining .....	26(1),30
Practical Applications of Mass Balances and Phase Equilibria in Brine Crystallization .....	28(2),136
Problems on Fluids in Motion and at Rest .....	29(2),130
Solving Chemical Kinetics Problems by the Markov-Chain Approach .....	27(1),42
Thermodynamics and Common Sense .....	27(4),206
Three Problems in Fluid Mechanics .....	26(3),130
Unusual Three-Phase Flash Equilibrium Problems .....	29(3),192
When is a Theoretical Stage not Always a Theoretical Stage? .....	27(3),178
Wind-Chill Paradox: Four Problems in Heat Transfer .....	30(4),256

Collaborative Study Groups: A Learning Aid .....	27(1),38
Colloid and Surface Phenomena-1995: Teaching .....	30(3),190
Colloquium Series in Chemical Engineering, A .....	26(4),200
Communicate Technical Material, Helping Students .....	27(2),144
Communication Skills, A Course in .....	29(3),158
Communication Training into Laboratory and Design Courses, Integrating .....	27(3),188
Competition for Second-Year Students, Design .....	30(2),102

Compleat Chemical Engineer, The .....	29(2),125
Computational Methods for Process Simulation .....	26(2),87
Computational Results: How Reliable Are They? .....	30(1),20
Computer-Aided Design and Operation of Batch Processes .....	29(2),76
Computer Control of a Distillation Experiment .....	26(1),38
Computer Graphics, Teaching Staged-Process Design Through Interactive .....	28(2),110
Computers in Engineering Education, Role and Impact .....	29(1),46
Computers in Undergraduate ChE Education .....	29(1),50
Computers to the Nintendo Generation, Teaching Transport Phenomena with Interactive .....	30(1),40
Computing, A Course on Parallel .....	26(4),172
Computing in Engineering Education: Part 2 .....	26(1),52
Computing in the Laboratory, Real-Time, Sensor-Based .....	30(4),280
Computing in the Undergraduate ChE Curriculum .....	29(3),198
Computing Teaching with FORTRAN 90 .....	27(3),216
Control Valves for Pipework Systems; On Selecting Appropriate .....	30(1),54
Controllers at Drexel, Microprocessor-Based .....	27(4),188
Convection and Crystal Growth, Interactive Dynamics of .....	27(4),198
Convective-Diffusive Transport With Reaction, Pattern Formation in .....	26(4),214
Cooling Water Explained by Mass and Heat Transfer, An Ancient Method for .....	29(2),96
Corcoran Award, The William H.: Past, Present, Future .....	28(2),90
Correlation and Overcorrelation of Heterogeneous Reaction Rate Data .....	29(1),22
Coulson and Richardson's Chemical Engineering .....	29(2),111
Course Sequence for Instrumentation and Control, A .....	26(3),136
Creativity and Innovation for Chemical Engineers .....	28(4),270
Critical State, Designs to Demonstrate the .....	28(1),44
Cryogenic Hydrogen Reactive Cooling Process, Simulating the Air Products .....	29(1),26
Crystal Growth, Interactive Dynamics of Convection and .....	27(4),198
Crystal Growth Modeling, Czochralski .....	27(2),122
CSTRs, Exothermic .....	28(1),30
CSTR; Dynamic and Steady-State Behavior of a .....	30(2),132
CSTRs In Tandem Revisited, Design of .....	26(3),164
Curriculum, Ideas About .....	26(1),34
Curriculum, Mathematica in the ChE .....	30(2),136
Curriculum, Molecular Enrichment of the Core .....	26(3),160
Curriculum-1994; The Chemical Engineering .....	30(3),184
Czochralski Crystal Growth Modeling .....	27(2),122

#### ■ D

Demonstrations to Complement a Course in General Engineering Thermodynamics .....	30(2),108
--	-----------

#### DEPARTMENTS

Arizona State University .....	28(3),154
FAMU/FSU .....	27(1),8

Howard University .....	27(2),72
Instituto Tecnológico de Celaya .....	26(1),8
M.I.T.'s School of Chemical Engineering Practice .....	27(3),154
New Mexico State University .....	29(3),138
Northeastern University .....	29(2),70
Pittsburgh, University of .....	28(2),86
South Carolina, University of .....	30(1),2
SUNY Buffalo .....	28(1),6
Tennessee, The University of .....	29(1),2
Toledo, University of .....	26(2),58
Virginia, University of .....	26(3),114
Washington, University of .....	30(2),82

Design, Chemical Engineering: Problem-Solving Strategy .....	26(1),44
Design, The Technically Feasible .....	27(3),166
Design Competition for Second-Year Students .....	30(2),102
Design Course, Implementation of Multiple Interrelated Projects Within a Senior .....	30(3),204
Design Course for Chemical Engineers, Freshman .....	30(1),76
Design Courses, Integrating Communication Training into Laboratory and .....	27(3),188
Design Experience, A Large-Group Senior .....	30(1),70
Design of CSTRs in Tandem Revisited .....	26(3),164
Design Problem in Mass Transfer Operations, A Conceptual .....	29(3),182
Design Sequence, An Integrated .....	28(1),52
Design Through Interactive Computer Graphics, Teaching Staged-Process .....	28(2),110
Designs to Demonstrate the Critical State .....	28(1),44
<i>Differential Equations in Chemical Engineering, Modeling With</i> .....	26(4),213
Dimensional Analysis for Hydrodynamic Electrochemical Systems .....	28(4),232
<i>Discrete Linear Control Systems, Analysis and Design of</i> .....	29(1),16
Discrete Mathematics, A Course in .....	30(4),240
Distillation Column, Changing Vapor-Liquid Traffic in a .....	30(1),36
Distillation Column Performance .....	29(4),240
Distillation Experiment, Computer Control of a .....	26(1),38
Distillation from Kidd to Young, The 19th Century Legacy to .....	29(4),250

<b>Division Activities</b> .....	26(4),170; 27(2),77; 28(4),264;
.....	30(4),279

DuPont Design Internship in Industrial Pollution Prevention .....	28(2),116
DuPont Teaching Fellowship Program, The .....	27(4),212

## ■ E

Eastman Way, Experience the .....	28(4),258
-----------------------------------	-----------

## EDUCATORS

Burnet, George; Iowa State University .....	26(2),62
Camahan, Brice; University of Michigan .....	30(3),162
Cutlip, Michael B.; University of Connecticut ....	27(3),160

Denn, Morton M.; U. California, Berkeley .....	30(2),88
Duda, Larry; Penn State .....	27(2),66
Edgar, Thomas F.; University of Texas, Austin .....	26(1)
Hanesian, Deran; New Jersey Inst. of Technology .....	30(1),8
Heist, Richard; University of Rochester .....	29(3),144
Hollein, Helen C.; Manhattan College .....	29(2),66
Jolls, Kenneth R.; Iowa State University .....	28(1), 2
Ollis, David F.; North Carolina State University .....	28(3),158
Sandler, Stan; University of Delaware .....	29(1),8
Seinfeld, John H.; California Institute of Tech .....	28(2),82
Wankat, Phillip C.; Purdue University .....	26(3),120
Wasan, Darsh; Illinois Institute of Technology .....	27(1),2
Wilkes, James O.; University of Michigan .....	30(3),162

<i>Electrochemical Engineering Principles</i> .....	26(2),102
Electrochemical Systems, Dimensional Analysis for Hydrodynamic .....	28(4),232
Electrokinetic Transport Phenomena .....	28(4),254
Elliptic Integrals, ChE Applications of .....	30(3),214
<i>Engineering Your Future</i> .....	29(3),197
Environmental Auditing, A Graduate Certificate in .....	30(4),252
Environmental Awareness, A Laboratory Experiment that Enhances .....	30(2),98
Environmental Engineering, Chemical and: A Logical Combination .....	29(4),234
Environmental Impact of Paper and Plastic Grocery Sacks .....	26(2),82
Environmental Remediation, A Course on .....	26(4),204
EPIC: The Engineering Program for International Careers .....	30(1),46
Equilibrium, Calculation of Vapor-Liquid .....	29(3),204
Equilibrium, Influence of Catalysts on Thermodynamic .....	26(4),180
Equilibrium Problems, Unusual Three-Phase Flash .....	29(3),192
<i>Equilibrium Staged Operations, Separations in Chemical Engineering</i> .....	27(1),26
Error Bars in Process Simulation .....	28(1),58
Ethics of Graduate Engineering Students, Academic .....	28(4),242
Evolution for Chemical Engineers .....	30(3),168
Excellence in Teaching, The Quest for .....	27(4),182
Excess Functions, A Field Guide to .....	28(1), 18
Exothermic CSTRs: Just How Stable are the Multiple Steady States? .....	28(1),30
Experiment, Add Some Flavor to Your Agitation .....	26(3),156
Experiment, An Interesting and Inexpensive Modeling .....	27(2),150
Experiment, An Inexpensive and Quick Fluid Mechanics .....	27(2),140
Experiment that Enhances Environmental Awareness, A Laboratory .....	30(2),98
Experimental Methods to Characterize and Control Liquid-Liquid Processes .....	26(2),66
Experiments, Basic Chemical Engineering .....	27(1),52
Experiments in Mass Transfer, Low-Cost: Part 1 .....	30(1),50
Experiments in Mass Transfer, Low-Cost: Part 2 .....	30(2),142
Extraction Columns, Solid Phase: A Tool for Teaching Biochromatography .....	27(1),34

## ■ F

Faculty, Mentoring Junior .....	30(4),244
Faraday, Michael: Contributions to ChE .....	28(4),284
Fed-Batch Fermentation, Monitoring and Control of a ....	26(2),94
Fermentor, The Effect of Agitation on Oxygen Mass Transfer in a .....	26(3),142
Field Guide to the Excess Functions, A .....	28(1),18
Films, Jets, and Drops; Modeling Flows in .....	29(4),210
Finite Transfer Rate, The Mass Transfer Boundary Rate with .....	30(2),94
First Few Years, Teaching in the .....	28(4),280
First-Year Introductory Seminar, A .....	28(1),74
Fluids in Motion and at Rest, Problems on .....	29(2),130
Fluid Mechanics, Three Problems in .....	26(3),130
Fluid Mechanics and Heat Transfer, Fun Ways to Learn .....	28(3),188
Fluid Mechanics Experiment, An Inexpensive and Quick .....	27(2),140
Fluid Structure for Sophomores .....	27(1),44
Fluidization Engineering .....	27(2),85
Fluidized-Bed Experiment, A Simple but Effective .....	28(3),214
Fluids in Motion and at Rest, Problems on .....	29(2),130
FORTAN 90, Computing Teaching with .....	27(3),216
Free Energy of Wetting, The .....	27(4),184
Freshman Design Course for Chemical Engineers .....	30(1),76
Fundamentals of Bio(Molecular) Engineering, An Introduction to the .....	26(4),194
Fundamentals of Adsorption .....	28(4),250
Fundamentals of Chemical Engineering .....	27(2),80

## ■ G

GAMS, AMPL, and MINOS for Optimization, Comparison of .....	30(3),220
Grading Student Reports, A Pragmatic Approach to .....	28(1),78
Graduate Certificate in Environmental Auditing, A .....	30(4),252
Graduate Education, Some Thoughts on .....	26(4),210
Graduate Research, Industrial Involvement in .....	28(4),274
Graduate-Recruiting Program, A Pilot .....	26(4),190
Graduate Student Recruiter, Confessions of a .....	30(4),262
Grand Words, But So Hard to Read: Diction and Structure in Student Writing .....	27(3),200

## ■ H

<i>Hazard Control in the Chemical Process Industry,</i> <i>Handbook of Health .....</i>	28(4),269
<i>Hazardous Waste Management .....</i>	30(1),19
<i>Hazardous Waste Processing: In the ChE Curriculum ....</i>	29(3),178
<i>HAZOP and HAZAN; Identifying and Assessing</i> <i>Process Industry Hazards .....</i>	27(4),167
Heat and Its Transfer, Magic Unveiled Through the Concept of .....	28(3),180
Heat Transfer, Fun Ways to Learn Fluid Mechanics and .....	28(3),188
Helping Students Communicate Technical Material .....	27(2),144
Heterogeneous Reaction Rate Data, Correlation and Overcorrelation of .....	29(1),22
High School Outreach Program, A Unit on Acid Rain in a .....	27(3),210

High School Students and Science Teachers to Chemical Engineering, Introducing .....	26(1),24
Holistic Approach to ChE Education: Part 1. Professional and Issue-Oriented Approach .....	28(2),122
Holistic Approach to ChE Education: Part 2. Approach at the Introductory Level .....	28(3),204
Hydrodynamic Electrochemical Systems, Dimensional Analysis for .....	28(4),232

## ■ I

Ideal Gas, Beware the Use of an .....	28(1),62
Ideas About Curriculum .....	26(1),34
Industrial Experience Program, Phillips Petroleum Company .....	29(1),18
Industrial Involvement in Graduate Research .....	28(4),274
Industrial Practice in the Unit Operations Lab, Introducing .....	28(2),128
Industry Program in ChE, Accelerated BS/Master's .....	28(3),194
Instabilities, Polymer Flow .....	28(3),162
Instrumentation and Control, A Course Sequence for ....	26(3),136
Interfacial Transport Processes and Rheology .....	26(3),104
International Careers: EPIC, the Engineering Program for .....	30(1),46
International Engineering Internship Program .....	30(2),126
Internship in Industrial Pollution Prevention, DuPont Design .....	28(2),116
Internship Program, International Engineering .....	30(2),126
Introducing High School Students and Science Teachers to Chemical Engineering .....	26(1),24
Introducing Water-Treatment Subjects into Chemical Engineering Education .....	26(1),20

## ■ J

Journals, Student: Are they Beneficial in Lecture Courses? .....	29(1),62
---	----------

## ■ K

Kidd to Young, The 19th Century Legacy to Distillation from .....	29(4),250
Kinetics Problems by the Markov-Chain Approach, Solving Chemical .....	27(1),42

## KNOWLEDGE STRUCTURE

Chemical Reaction Engineering for Undergraduates, An Appetizing Structure of ....	27(2),110
Fundamentals of Chemical Engineering .....	27(2),80
Knowledge Structure of the Stoichiometry Course .....	27(2),92
Mathematics .....	27(2),86
Thermodynamics: A Structure for Teaching and Learning About Much of Reality .....	27(2),96
Transport Phenomena, The Basic Concepts in ....	27(2),102

## ■ L

Laboratories, Quality in Teaching .....	29(3),186
Laboratory, A Bioreactor Experiment for the Senior .....	28(1),24
Laboratory, Introducing Statistical Concepts in the	

Undergraduate .....	27(2),130
Laboratory and Design Courses, Integrating	
Communication Training into .....	27(3),188
Laboratory Course, A Comprehensive Process Control ..	27(3),184
Laboratory Development, A Systematic Approach	
for Long-Range .....	26(2),98
Laboratory Experiment that Enhances Environmental	
Awareness .....	30(2),98
Laboratory Projects: Should Students Do Them or	
Design Them? .....	29(1),34
Langmuir as Chemical Engineer .....	28(4),262

### LEARNING IN INDUSTRY

Accelerated BS/Master's Industry Program	
in ChE .....	28(3),194
Chemical Engineering Practice School Program	
at Tulane University, The .....	29(4),246
Create a Successful Summer Engineering	
Project .....	29(3),168
DuPont Design Internship in Industrial	
Pollution Prevention .....	28(2),116
Industry, Academe, and Government: Building	
a New Relationship .....	30(3),174
M.I.T. Practice School, The .....	28(1),38
Phillips Petroleum Company Industrial	
Experience Program .....	29(1),18
Semiconductor Wafer Fabrication .....	30(4),266
WPI Projects Globalize Engineering Education	
in the Pacific Rim .....	29(2),112

Learning Principles, A Quick Guide to: What Works .....	27(2),120
Learning Through Doing: A Course on Writing	
a Textbook Chapter .....	27(4),108
Lectureship Award, The ASEE Chemical Engineering	
Division .....	27(4),196
<b>Letter to the Editor</b> .....	26(1),7;(1)23: 29(1),7;(2),104;(3),161: 30(3),182,183
Liquid-Liquid Processes, Experimental Methods to	
Characterize and Control .....	26(2),66
Liquid-Phase Axial Dispersion in a Packed Gas	
Absorption Column .....	27(1),20

### M

<i>Macromolecular Science, Introduction to</i> .....	26(4),182
Management Techniques to ChE Processes, Applications	
of Quality .....	30(1),30
Management Tools in Education, Application of	
Some Modern .....	30(1),26
Maple, Chemical Engineering With .....	29(1),56
Margins, Terse Words in Tight .....	29(2),134
Markov-Chain Approach, Solving Chemical Kinetics	
Problems by the .....	27(1),42
<i>Mass Transfer</i> .....	27(2),117
Mass Transfer, Low-Cost Experiments in: Part 1 .....	30(1),50
Mass Transfer, Low-Cost Experiments in: Part 2 .....	30(2),142
Mass Transfer Boundary Layer with Finite Transfer	
Rate .....	30(2),94
Mass Transfer Operations, A Conceptual	
Design Problem in .....	29(3),182

Master's Industry Program in ChE, Accelerated BS/ .....	28(3),194
Math Problems on Vessel Draining, More Applied .....	26(1),30
Mathematica, Moments With .....	26(1),12
Mathematica in the ChE Curriculum .....	30(2),136
Mathematical Modeling of an Experimental	
Reaction System .....	28(1),48
Mathematics .....	27(2),86
Mathematics, A Course in Discrete .....	30(4),240
Maxwell's Demon, Exorcising .....	29(2),94
